Allowable Subject Matter

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-8 is that the prior art does not show or make obvious an air flow rate measuring apparatus as shown in claim 1. Applicant discloses an air flow rate measuring apparatus comprising an inflow port constructed by removing at least a portion of a first and a second side wall of an upstream diversion passage, said sidewalls facing each other in a direction perpendicular to a main flow direction. Also, applicant discloses a wall surface on a downstream side of the upstream diversion passage formed into a curved surface shape to constitute an air lead-in surface. These limitations in combination with other limitations of the claims render this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
